

ISO 17025 training courses

COBHAM

2010 and 2011 training course dates

Cobham Technical Services
AccessERA

Cobham Technical Services' series of UKAS accreditation courses provide delegates with a detailed understanding of how the requirements of ISO 17025 can be implemented cost-effectively, and how UKAS interprets these requirements during their assessment and surveillance visits. They are suitable for those considering accreditation as well as those already accredited. Each course reflects the practical experiences of the presenters, gained through their successful operation of UKAS accredited laboratories and quality management systems over many years.

Auditing in UKAS Accredited Laboratories

8 September, 7 December 2010 and 3 February, 17 May 2011

This course provides delegates with a thorough understanding of the ISO 17025 auditing requirements and how they can be implemented cost-effectively within an accredited laboratory. Exercise modules involving syndicate work and group discussions will demonstrate methods and tools for effective auditing. The course also includes strategies for dealing with problems found during an audit. This course is extremely popular so we would advise that you book well in advance.

British Board of Agrément, delegate spring 2010
"It gets to the nub of things, cutting through the waffle and jargon"

UKAS Accreditation for Laboratory Staff

11 November 2010 and 13 April 2011

Delegates who work at the 'coal face' of taking measurements for their ISO 17025 accredited laboratories will gain a thorough understanding of the problems they are likely to encounter, and must deal with, during their daily routine. Laboratory and Quality Managers who need a detailed understanding of what their staff must do in order to ensure continued and cost-effective ISO 17025 compliance, would also benefit from this valuable training.

P Clarke & Sons, delegate spring 2010
"Informative and very well presented"

Ever thought about in-company training?

These courses can also be delivered at your site. To discuss your training requirements, please call The Events Team on +44 (0)1372 367439.

Auditing in UKAS Accredited Laboratories

8 September, 7 December 2010 and 3 February, 17 May 2011

Cobham Technical Services
AccessERA

08.30 Registration and refreshments

08.45 **Introduction**

The auditing system

- What are the ISO 17025 requirements?

Syndicate exercise - setting out the audit plan

- Auditing records
- Practical aspects of the auditing process
- Implications and benefits of audits.

Horizontal and vertical auditing

- Horizontal or vertical auditing - what are they and which is best?

Syndicate exercise - auditing of administration records

12.45 Lunch

Syndicate exercise - auditing in the laboratory

Syndicate exercise - auditing of certificate production

Root cause analysis

- Finding the root cause
- 5 why's.

Syndicate exercise - root cause analysis

Corrective actions

- Timescales, appropriateness, consequences
- Preventative actions
- When should UKAS be informed?

Syndicate exercise - corrective actions

Annual quality system review

- Audit information and the annual quality system review
- Review of corrective actions
- Methods of implementation
- Part of the improvement process.

Wash-up group exercise

17.00 Close.

Your speakers

The presenters have practical, hands-on experience gained by operating commercially successful UKAS accredited laboratories, enabling them to give detailed, specific responses and cost-effective solutions to queries.

Peter Davis - Quality Assurance Manager, Cobham Technical Services

Peter has over 30 years' experience in quality management. During this time he has been responsible for designing, developing, implementing and maintaining Quality Systems for research, design, manufacturing, software, testing and product certification for military and commercial equipment and services. Peter also provides a Quality Assurance consultancy and advisory service for customers of Cobham Technical Services and AccessERA subscribers and has also written numerous articles for the quality press.

Paul McCarthy - Independent Consultant

Paul has extensive experience in both the operation and auditing of laboratories in line with the requirements of ISO 17025. Over the past 29 years he has worked in internationally recognised materials testing laboratories fulfilling the roles of operational, quality and technical management. In January 2004 he established his own consultancy, addressing laboratory quality assurance and materials testing matters. He is a UKAS and INAB laboratory assessor, undertakes audits across Europe and the US for Nadcap (the global aerospace accreditation organisation), and helps laboratories prepare for accreditation against ISO 17025.

UKAS Accreditation for Laboratory Staff

11 November 2010 and 13 April 2011

Cobham Technical Services
AccessERA

08.45 Registration and refreshments

09.00 **Introduction**

- History of UKAS
- Relevance of accreditation to your laboratory
- Credibility of UKAS.

Training

- Types of proficiency programmes
- UKAS approach
- Internal schemes
- Analysis of the data and presentation of the information
- Uses of the results.

Your customers' property

- UKAS requirements
- Receipt - verify
- Using - care
- Disposal - how and what evidence?
- Security.

Uncertainties of measurement

- Introduction
- Terminology
- Contributions
- Group exercise.

16.20 Close.

The United Kingdom Accreditation Service (UKAS) is recognised by the UK Government as the sole national body responsible for accrediting organisations that perform calibration, testing or sampling. For laboratory accreditation, UKAS assesses to ISO 17025, the international standard for the competence of test and calibration laboratories.

Why use Cobham Technical Services for ISO 17025 training?

Cobham Technical Services' ISO 17025 courses were originally developed with UKAS and have been successfully running since 1992, training well over 2500 people. As an ISO 17025 accredited organisation, we not only teach the requirements but must adhere to them ourselves, placing us in an ideal position to train others.
